PERSONAL STATEMENT

Enthusiastic student looking for an apprenticeship in the software development and field. Possessing good written and verbal communication and an interest in programming which has spanned my lifetime with a particular passion for web development. Looking for a start in the exciting world of programming where I can learn a trade and realize a lifetime ambition.

Technical Skills

Strong: Python, SQL, HTML, CSS, JavaScript, Ember JavaScript, Firebase, Git, Git workflow, GitHub Experienced: Angular, Node.js, AWS

PERSONAL SKILLS

- Quick learner keen to enhance and gain new skills
- Self-driven with good communication skills and ability to work in teams
- Very social and interactive with ease in blending in different environments
- Eloquent public speaker with little to no stage fright regardless of audience size.
- Imaginative and critical thinker that enjoys brainstorming ideas and solving problems

ACADEMIC QUALIFICATIONS

Moringa School

January 20th 2022 – present

Software Engineering, Web Development

University of Eastern Africa, Baraton

August 28th 2017 – August 15th 2021

Bachelor of Science in Mathematics and Statistics

Kanunga High School

2013-2016

Kenya Certificate of Secondary Education

WORK EXPERIENCE

Image Registrars LTD

Clerk

Worked when called upon.

VOLUNTEER ACTIVITY

Volunteer Fund raiser; Diabetes walks Kenya

2015 to present

Responsibilities and Achievements

- Raised funds to aid Children with diabetes
- Participated in annual diabetes walk alongside other volunteers 2 years in a row

INTEREST

Programming: I've always been interested in data science, with a particular fondness for R programming. I am familiar with a number of machine learning algorithms, including linear regression, decision trees, and support vector machines. Conversant with spreadsheets, SQL, Tableau and Looker.

Music: Experienced percussion coordination participating in team performances in the Kenya Music Festivals leading my team to nationals in two consecutive years
